exploring the issues of class through in depth studies of housing sport art music and politics in britain class and everyday life persuasively demonstrates the pervasive influence of class on everyday life and the need to centre a radical understanding of class within emancipatory political movements the need for a more expansive understanding of class is politically urgent there is a disconnect between descriptive and analytical approaches to class and the politics of class and realities around how

class is lived discourse has been shaped by top down frameworks of analysis and measurements which have stripped the study of class of its political radicalism this book makes the case for a sociology of class which is informed by a politics of class based upon using the everyday as the point of enquiry it presents a sociology of class from the bottom up which focuses on everyday life and the point at which class is made and remade in doing so it advocates for an attentiveness to class and everyday life through a conjunctural analysis using an everyday lens this book examines how the shifting conjunctures manifest in everyday spaces in classed ways and how such changes are negotiated resisted and shape the working class subject and communities this is based upon an understanding of everyday classed experiences which identifies and challenges inequalities while also recognising value and hope this perspective aims to offer a recognition of both the opportunities and challenges of class as a way of developing a stronger more politicised understanding of class which takes solidarity and class community power seriously to resist inequality and develop emancipatory politics this urgent and impassioned book will be essential reading for students academics and activists with an interest in the lived experience of class in Britain today

this book explores the new politics of class in 21st century Britain it shows how the changing shape of the class structure since 1945 has led political parties to change which has both reduced class voting and increased class non voting this argument is developed in three stages the first is to show that there has been enormous social continuity in class divisions the authors demonstrate this using extensive evidence on class and educational inequality perceptions of inequality identity and awareness and political attitudes over more than fifty years the second stage is to show that there has been enormous political change in response to changing class sizes party policies politicians rhetoric and the social composition of political elites have radically altered parties offer similar policies appeal less to specific classes and are populated by people from more similar backgrounds simultaneously the mass media have stopped talking about the politics of class the third stage is to show that these political changes have had three major consequences first as Labour and the Conservatives became more similar class differences in party preferences disappeared second new parties most notably UKIP have taken working class voters from the mainstream parties third and most importantly the lack of choice offered by the mainstream parties has led to a huge increase in class based abstention from voting working class people have become much less likely to vote in that sense Britain appears to have followed the US down a path of working class political exclusion ultimately undermining the representativeness of our democracy they conclude with a discussion of the Brexit referendum and the role that working class alienation played in its historic outcome
